

MAHENOOR SALAT

Senior Full-Stack Product Engineer | AI Training & Alignment Specialist (Top 1%)

+91 95109 44489 | salatmahenoor7.8.6@gmail.com | linkedin.com/in/salat-mahenoor | github.com/mahenoorsalat | salat-mahenoor.vercel.app

PROFESSIONAL SUMMARY

Senior Full-Stack Product Engineer and AI Alignment Specialist with 6+ years of experience architecting high-throughput SaaS platforms, distributed cloud microservices, and frontier LLM training workflows. Top 1% vetted talent (100% Upwork JSS) and Top 5% global LLM S2 Annotator at Turing. Proven history of reducing SQL query latency by 35%, cutting product release cycles by 50%, and slashing web application load times by 40% with 100/100 Core Web Vitals.

TECHNICAL SKILLS

Languages & Core: TypeScript, JavaScript (ES6+), Python, SQL (PostgreSQL, MySQL), HTML5, CSS3, JSON-LD

Frontend & Creative Engineering: Next.js 14/15 (App Router, SSR/SSG), React.js, Three.js, WebGL, Tailwind CSS, Framer Motion, Core Web Vitals (100/100), Technical SEO, WCAG AAA

Backend, Cloud & Architecture: Node.js, Express, PostgreSQL, Supabase, Prisma ORM, RESTful APIs, GraphQL, Redis, Microservices, Monorepo (Turborepo), AWS (EC2, S3, Lambda), GCP, Docker, CI/CD, Linux

AI, LLM Systems & Training: RLHF, S2 LLM Evaluation & Annotation, Prompt Engineering, CUA Trajectory Optimization, n8n AI Agents, RAG Vector Search, LangChain, Opik LLM Tracing

PROFESSIONAL EXPERIENCE & PREMIER AI TRAINING

Turing • Senior LLM S2 Annotator & AI Trainer

Mar 2026 – Jun 2026

Part-time Contract (Silicon Valley AI Lab Alignment)

San Francisco, CA (Remote)

- Ranked in the **top 5% of global S2 annotators** for advanced reasoning quality, code synthesis, and multi-turn architectural logic evaluation.
- Maintained a **98.5%+ evaluation accuracy score across 1,200+ assessments**, directly accelerating foundation model fine-tuning for Tier-1 AI research laboratories.
- Identified, isolated, and cataloged **150+ edge-case logical breakdown errors** in model reasoning, providing reinforcement feedback (RLHF) to model engineers.
- Conducted prompt sensitivity analysis, model response ranking, and reinforcement calibration across multilingual, Python, and SQL domains.

OpenClaw • CUA Trajectory Specialist & LLM Alignment Specialist

Mar 2026 – Jun 2026

Part-time Contract

Remote

- Architected and executed **400+ complex multi-turn conversational trajectories** within the OpenClaw sandbox to evaluate LLM behavior under strict programmatic constraints.
- Drove a **15% measured increase in model constraint compliance** and eliminated systematic logical hallucinations across complex SQL and relational database query benchmarks.
- Formulated synthetic data alignment strategies and reinforcement heuristics to optimize reasoning reliability and mitigate agentic tool-calling drift.

HeuristixAI • Senior Full-Stack Product Engineer

Dec 2022 – Apr 2026

Full-time

Jammu & Kashmir, India (Remote)

- Directed end-to-end engineering architecture and product delivery for **5+ enterprise SaaS platforms**, compressing standard launch cycles from 6 months down to 3 months (**50% time-to-market acceleration**).
- Architected high-throughput relational database schemas (PostgreSQL) and RESTful microservices, **reducing SQL query latency by 35%** (slashed baseline response from 420ms to 273ms under peak concurrency).
- Engineered aggressive Next.js frontend performance optimizations (code-splitting, streaming SSR, image pipeline tuning), **reducing page load times by 40%** (from 3.8s down to 2.2s) and lifting conversion metrics.
- Designed and implemented programmatic technical SEO architectures, generating a **180%+ surge in organic search traffic**.

Hexoforge LLC • Senior Frontend Architect & Developer

Nov 2024 – Jan 2026

Part-time Contract

Remote

- Led modern frontend architecture across 3+ client production SaaS products utilizing Next.js, React, and TypeScript.
- Created a modular, accessible Design System and reusable component library that **boosted cross-team sprint velocity by 35%** (saving 12–16 developer hours every week).
- Audited and refined Core Web Vitals to achieve near-perfect 98+ Google Lighthouse scores across all desktop and mobile viewports.

ADDITIONAL ENGINEERING EXPERIENCE & OPEN SOURCE LEADERSHIP

AOSSIE (Open Source Initiative) • Full-Stack Developer & Contributor

Jan 2023 – Nov 2025

Open Source / Google Summer of Code (GSoC) Mentoring Organization

Remote

- Maintained and contributed core full-stack features to official web platforms serving a global community of **100+ active open-source contributors** (github.com/mahenoorsalat/website).
- Optimized relational database interactions and batch fetching, **reducing database roundtrips by 30%** (from 10 queries down to 7 per view load).
- Collaborated with distributed international engineering teams under Agile/Scrum workflows to release well-tested, fault-tolerant releases.

Developer Studios • Full-Stack Engineer (Contract)

Nov 2025 – Dec 2025

Part-time Contract

Bilaspur, CG, India (Remote)

- Engineered 5+ mission-critical full-stack modules, reducing production bug occurrence by **25%** through automated testing and strict TypeScript typing.
- Streamlined backend service boundaries, reducing ongoing bug turnaround and mean-time-to-resolution (MTTR) by 20%.

RKWEB • Full-Stack Product Engineer

Jan 2020 – Dec 2022

Full-time

Rajkot, Gujarat, India

- Built and maintained 10+ production client web applications and REST APIs using React, JavaScript, Node.js, and SQL databases.
- Restructured relational SQL database indexes and queries, eliminating database bottlenecks and **lowering server memory overhead by 25%** on high-traffic days.

FEATURED COMPANY & OPEN SOURCE PROJECTS (GITHUB VERIFIED)

Trigger.dev • AI Agent & Background Workflow Infrastructure

github.com/mahenoorsalat/trigger.dev

TypeScript, Node.js, Durable Execution, Prisma ORM, Redis, Distributed Task Queues

- Contributed to background job engine and durable AI agent workflow execution, implementing resume token mechanisms and durable task run dependencies for high-concurrency microservices.

AOSSIE Official Web Platform • Open Source Contributor Hub

github.com/mahenoorsalat/website

JavaScript, React, Node.js, Web Standards, Open Source Community Architecture

- Engineered the official web presence and contributor hub for AOSSIE (Google Summer of Code organization); enhanced cross-device responsiveness, accessibility, and documentation indexing for hundreds of worldwide developers.

The GKT Web • Enterprise SaaS Analytics Platform

thegktweb.vercel.app

Next.js 14, TypeScript, PostgreSQL, Tailwind CSS, Chart.js

- Engineered an enterprise analytics dashboard with real-time visualization; **reduced user task completion time by 25%** through predictive UX workflows and sub-second SQL aggregation.

Award-Winning Creative Motion Engine • Digital Storytelling

award-winning.vercel.app

Three.js, WebGL, Framer Motion, Next.js, Shaders, Performance Optimization

- Awwwards-recognized creative storytelling platform built with 60fps WebGL and physics shaders; **boosted client engagement by 50%** while maintaining a flawless 100/100 Google Lighthouse score.

Mythic Agency • AI Growth & Automated Revenue Infrastructure

mythic-agency.vercel.app

n8n Autonomous AI Agents, LLM Automation Pipelines, Next.js, Supabase

- Engineered scalable revenue infrastructure integrating autonomous **n8n AI agent workflows** for lead enrichment, CRM syncing, and automated qualification.

Empire Results & Autism Warriors Hub • Scale Architecture & a11y

empireresults.com | autismwarriors.com

Technical SEO, Next.js SSR, PostgreSQL, WCAG 2.1 AAA Accessibility Guidelines

- Engineered an automated programmatic SEO pipeline with dynamic SSR routing on PostgreSQL, alongside an accessibility-first community hub built to strict WCAG 2.1 AAA accessibility standards.

EDUCATION & CERTIFICATIONS

Manipal University Jaipur • Bachelor of Computer Science (B.Tech / B.Sc)

2016 – 2020

Specialization: Software Engineering & Relational Database Systems • Jaipur, India

Certifications & Honors: AWS Certified Cloud Practitioner • Google Cloud Associate Cloud Engineer • Certified ScrumMaster (CSM) • Stanford Online SQL & RDBMS • UC Davis SEO • Upwork Top Rated (100% JSS) • Turing S2 Top 5% Annotator
